Herman P. Frizzell, United States Commissioner for the Eastern Illi-

Thomas' office, as an attorney for the receiver, at a salary of \$200 a

month. All of these acts, the article states, were done "with un-

lawful and improper intent to favor and prefer Thomas."

In the Hawkins Mortgage Co.

case in bankruptcy, it is charged

lowed Thomas to appear as an attorney for one of the bankrupts in violation of a Federal statute which forbids a referee to practice

as an attorney in any bankruptcy proceedings. This action on the part of the Judge is said to have been taken in order to favor

Thomas in obtaining a fee of \$2500 from his client, Morton S. Hawkins.

Case of F. J. Skye.

The article further charges that on Oct. 24, 1921, Judge English "wrongfully, unlawfully and improperly" received from Thomas \$1435 toward the purchase price of an auto 'as a return or in recognition of the favoritism and partiality extended by George W. 5000 Yards—Friday and Saturday English to Charles B. Thomas' Alleged Negligence. Finally, the article says that Judge English approved the report of Thomas in the Southern Gem Coal case, for the first six months of the receivership, in which Thomas said that he had spent all this time in Chicago lookng after the receivership. Judge English did this, it is charged, when he knew that Thomas "was neglecting his duties as Referee in Bankruptcy in his office at East St. Louis, in spending six months of his time, 290 miles away from

The article stresses this point further, by asserting that Judge En glish "did then and there, despite knowledge and these facts. pprove said negligence on the part of Charles B. The fourth article deals with the handling of bankrupt funds by ludge English, and consequently involves his relations with the banks which he named as depositories of funds. It charges that "in conjunction with Thomas, he (English) did corruptly and inproperly handle and control the leposit of bankruptcy and other funds under his control, by depositing, transferring and using said funds for the pecuniary bene-fit of himself and Thomas, thus prostituting his official power and influence for the purpose of secur-ing benefits to himself and Thomas and their families."

Cites \$100,000 Transfer. In proof of this it cites the Judge's action in ordering. \$100,-00 of the assets of the Southern Traction Co., transferred from a bank in which it was drawing interest, to the Merchants' State Bank of Centralia, in which he was a director, and where it drew

Moreover, it charges that Judge English and Thomas entered into unlawful agreement with the since defunct Drovers' National Bank, whereby Judge English designated the bank as a depository for bank-rupt funds, on which no interest was paid, and that Judge English, Thomas and Farris English, the Judge's son, bought stock in the bank, and that the bank in return employed Farris English, the Judge's son, as cashier, at a salary of \$1500 a year. COUNTY ADOPTS NEW SYSTEM OF HANDLING TRAFFIC CASES

monses at Time and Place of Arrest.

Prosecuting Attorney Mueller of St. Louis County yesterday aptraffic cases in the county. It has been the practice of township officers to take alleged violators to Clayton to remain in the custody of the Sheriff until they could furnish a \$200 cash bond, but her after persons will be served on the officer, the persons will be per-mitted to go on their respective ways. Failure to appear in court on the day designated will result

in a warrant being issued. The new system was recommended to Mueller by a number of county constables and justices of the peace who found that they, as well as those arrested, were inconvenienced by the other method.

Justice of the Peace Werremeyer, one of those who advocated the summons system, said it would not lower the costs to be paid by per-sons convicted of violations. These costs average about \$18, he said.

The bid of the Cabell Petroleum Co., which had the contract last year, was 5.19 cents a gallon. One pigeon egs and one hen egg were all the nest contained. The hen egg was pipped and about ready to hatch. The old pigeon was in sole possession. She stayed on the job until a big well developed Barred Rock chicken was hatched, and has been mothering it ever since. The nest was in a place that was of easy access to any hen that might be willing to fly up to it. After getting one Barred Rock egg, the pigeon evidently had discouraged further contributions and set about to see what it would bring forth.—

Why doesn't the Mayor wriggle out of his dilemma by declaring a mistrial and then taking a change of venue to Frankim County on the ground of prejudice in St. Louis? To insure fairness he could hire Jimmy Hogan's lawyers for special prosecutors and Director Wall could be defended by Arthur Meininger's attorneys. Meet the latest new word-motorcade. It has found its way into print and is doubt-less already knocking impatiently at the door of Messrs. Funk & Wagnalls. Motor-cade on first acquaintance has a way of staggering the innocent bystander. Certainly any one who attempts to get in the way of motorbade is likely to be more than staggered, for motorcade means a procession of motor cars. The Past had its cavalcade: the Present has its motorcade. In the bright lexicon of the future we shall doubtless have to make way for airdade. Or will it be aerocade or perhaps avicade? Whichever it may be, its advent seems certain, and those of us who don't make way for aircade (or aerocade or avicade) will make just so many fewer jay flyers for the world to conjure with.—Life.

CAMILLE HEARS ABOUT STAGS

I think the way the Buckingham Hotel has gotten around the "stag" question is just wonderful. Mr. Mc-Farland, the manager, told me all about it when I went there for one of those superlative 65c luncheons. Buckingham Hotel centered about chivalry. So, how could they live up to that famous tradition if a lot of stags stepped out and left the ladies home? Therefore, to prove that two can live as cheaply as one and to induce them to take their ladies out, the hotel makes said stags pay double cover charge. That's really cute!

"Abie's Irish Rose" cast is stopping at the Buckingham Hotel during their two-weeks' stay in St. Louis. I got a close-up of some of the actors and they're just like you and l off the stage!

I off the stage!

Last Saturday the Rose Room was turned over to dance, lazz and revelry. The Egyptian Room is now too small for the throngs that go there—so it's Friday night in the Eysptian Room and Saturday night in the Rose Room. Really, I never saw such a peppy, happy crowd of folks as those who crowded the Rose Room until two o'clock. And Jerry Simon, Paul Sporleeder, Otto Rheinhardt, "Swede" Fletcher and the other jazz conspirators certainly.

Virt-eaters are clothes-eaters!

Run the hot water over CHIPSO for quick suds. Put the dishes in. You do little more than take them out and rinse, because CHIPSO dissolves grease with amazing speed. And what sparkling glass and glistening china! TUB WASHING quicker this way Put dry CHIPSO in the tub. Run in not water and you have suds at once. Add cold water to make the suds lukewarm. Twenty minutes soaking in CHIPSO suds loosens the dirt. Squeeze sudsy water through the clothes, rubbing badly soiled pieces lightly between the hands. Rinse and

WHITE CLOTHESwithout boiling CHIPSO makes your clothes white without boiling. You save work, gas, ime and all the unpleasantness of steam and odor. Of course, if you prefer to quicker and easier to boil them with CHIPSO.

DISHES in one-third less time

Put dry CHIPSO flakes in machine and run in hot water. You get suds instantly without running the motor. This saves time and electricity. Put the cleanest clothes in the first "load," leaving the dirtier things

TOU wouldn't knowingly pour a "clothes-I eating" chemical into your weekly wash, just to "cut" the dirt quickly.

Remember, dirt-eaters are clothes-eaters, too. For the sake of your clothes, and your hands as well, choose a soap that cleanses quickly, yes -but safely, too.

And that means CHIPSO! Why? Because CHIPSO is the quickest, most effective, safecleanser known.

CHIPSO is the wonderful new, economical, flaked soap made by Procter & Gamble for every household use. CHIPSO's foamy suds soak the clothes clean, quickly, thoroughly, yet safely.

CHIPSO saves time and trouble. It ends chipping and shaving of hard cake soap. Its rich suds make boiling and rubbing almost entirely unnecessary. It rinses instantly and leaves the clothes with that sweet, fresh odor that you like so much.

And CHIPSO is economical! There is enough for 6 average family washings in each big package of CHIPSO.

Look for CHIPSO's blue-and-orange package at your grocer's. To try it, buy the ten cent size. To use it regularly, buy the big size.

It proves that in the minds of those best fitted to judge the worth of a newspaper and its circulation. the New York Herald Tribune has attained a dominant position and is the logical keystone for any campaign aimed to reach the influential people of New York, the World's Greatest Market.

Furthermore in all classifications in 1925 the Herald Tribune gained a total of 3,218,864 lines - or 923,636 lines more than the combined gain of the Times, American and World.

That's why doctors urge it to start every day

O feel right through the morning you must have well-balanced, omplete food at breakfast. At most other meals -that is, at luncheon and at dinner-you usually get that kind of food.

But at breakfast the great dietary mistake is most often made—a hur-ried meal, often badly chosen.

Thus Quaker Oats, containing 16% protein, food's great tissue builder; 58% carbohydrate, its great energy element, plus all-important vita-mines and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.

It is food that "stands by" you through the morning. Food that should start every breakfast in your Quick Quaker cooks in 3 to 5

minutes. That's faster than plain toast. Don't deny yourself the natural stimulation this rich food offers.
